

STOP A NEW IMPERIALIST WAR AGAINST IRAQ! STOP THE ENDLESS WARS PROCLAIMED BY BUSH!

The American president Bush has ordered his huge military machine to be ready for a second Gulf war against Iraq to install a regime obedient to the interests of US imperialism.

Such a war will be a naked and criminal war of aggression. Under the hypocritical pretext of destroying weapons of mass destruction and creating "democracy" the United States intends to grasp hold of the huge oil reserves of Iraq and get complete military, political and economic control of this strategically important zone.

The American plans are conducted with the assistance of its key allies Tony Blair of England and the butcher of the Palestinian people Ariel Sharon. They seem set to unleash this war, that is condemned by the peoples all over the world as well as the majority of the states. This war is not only a deadly threat to the long suffering people of Iraq, but also poses acute dangers of new grave crimes against the Palestinian people, who are fighting a just fight for an independent **State** of Palestine.

More than a million Iraqis, and more than half a million Iraqi children have already died as a consequence of the unjust and genocidal sanctions imposed by the US and the UN. A new war will add immensely to the suffering.

Only a world wide mobilisation of the peoples against this war can stop it, before it begins.

THE INTERNATIONAL CONFERENCE OF MARXIST-LENINIST PARTIES AND ORGANISATIONS support the call for world wide mobilisations against the war on Iraq and works actively to develop the global mass movement against this war and the endless "war against terrorism" proclaimed by the Bush-administration.

The Bush -doctrine, embodied in the "National Security Strategy" openly calls for the global hegemony of US imperialism, the only superpower in the world today. The US grants itself the right to attack any nation, any people and any movement, which acts against its interests. Under the pretext of "preemptive strikes" it will start a series of wars without end, that does not preclude even the use of nuclear weapons.

The war against Afghanistan was the first in this so-called "war on terrorism", that has been extended to the Philippines, Colombia and other countries and regions of the world.

The Marxist-Leninist Parties and Organisations call on the working class and the peoples of the world to rise in a massive and revolutionary manner against this criminal imperial endeavour of the US and its allies, that aims to perpetuate and intensify the global system of exploitation and repression.

STOP THE NEW WAR FOR OIL! NO BLOOD FOR OIL! FOR AN INDEPENDENT **STATE OF PALESTINE!**
